Message from Research Director

Dear Colleagues:

It continues to be a busy and very productive time for the research efforts of the Division and all its members, not only with respect to publications but also with respect to participation in regional, national and international forums that recognize the expertise that we offer. We are delighted that our own Andrew Krahn is President of CCS and are confident that he will live up to his personal mantra of being "disruptive" as he moves the discipline and the society further into the future. From a local and administrative perspective, we continue to try to facilitate all of these pursuits by delivering on the prioritized strategic needs of the Division. Our bi-annual CAPP Pilot Project program is well established now and is coordinated by Vishaldeep Sidhu, our new Research Manager. She has immersed herself in trying to facilitate the myriad aspects of getting good ideas crystallized into compelling and competitive grant submissions, is working to improve access to statistical support and statistical collaboration, is facilitating budgeting and budget management and is ensuring that the irksome signature and approval process is as painless as possible. New needs are being communicated to us with respect to issues ranging from the increasing costs of publications to the need to be able to meet higher and higher standards for comprehensive literature reviews that are required to justify new grant proposals or to allow for publication of systematic reviews and meta-analyses. Additionally, many investigators are also extremely dependent upon access to registries and databases. Access can be difficult and if overly time consuming, this can also be detrimental to career progress. Additionally, we have the ability not just to be involved in multi-centre trials but also to lead them. Protection and growth of the extensive infrastructure including research assistants, research nurses, programmers, statisticians and many other supports must be a part of our long-term strategic planning. I conclude with optimism for continuing to grow the research productivity and with sincerest congratulations to all the highly successful member activities showcased in the current newsletter.

Sincerely,
G.B. John Mancini
Director of Research, UBC Division of Cardiology
Marc Deyell
Associate Director of Research, UBC Division of Cardiology

Awards & Distinctions

Krahn, Andrew

- President of the Canadian Cardiovascular Society- announced at the annual CCC event in October 2018.

Grants Awarded

Davis, Margot

- "Development of a Diagnostic Screening Algorithm for the Identification of Transthyretin Amyloid Cardiomyopathy in High-Risk Patient Populations". Pfizer- Nov 2018

Humphries, Karin

- "Transatlantic Network of Researchers in Sex and Gender: GOING-FWD". CIHR- GENDER-NET Plus ERA-Net competition

Krahn, Andrew

- "The Role of Electrophysiology Testing in Survivors of Unexplained Cardiac Arrest: The EPS ARREST Study" Co-Investigator, CIHR Project Grant 2018

Mancini, G.B. John

- "A randomized trial of evolocumab on saphenous vein graft patency following coronary artery bypass surgery (NEWTON-CABG)" Providence St. Joseph's and St. Michael's Healthcare Research Grant 2018

Invited Presentations

Deyell, Marc

- "The lowly PVC: Implications and treatment in 2018" University of Ottawa Cardiology Grand Rounds, October 31, 2018

Gin, Kenneth
